

DUMONT TECHNICAL INSTITUTE

ANNUAL REPORT

2011-2012

Dumont Technical Institute (DTI)

DTI is Gabriel Dumont Institute's Adult Basic Education and Skills Training program. Established in 1992, DTI celebrated its 20th anniversary in 2012. From its humble beginnings with four staff (May Hendersen, Lorna Docken, Morley Norton, and Marlene Laliberte) and the first principal (Anne Dorion), and with a deep conviction that Métis education is an essential building block to a better future for our people, DTI has grown to over 56 full time staff, which includes Marlene Laliberte, and is led by the current Director, Brett Vandale. Over the past 20 years, DTI has evolved and grown to fulfill its vision to "Help Build Brighter Futures" by following its philosophy of "Learners Come First."

During the 2011-2012 program year, DTI delivered or partnered in 34 programs (15 Adult Basic Education and 19 Skills Training programs) to over 547 students throughout Saskatchewan. Of these 547 students, 295 were enrolled in Adult Basic Education programs and 252 were in Skills Training programs. Of the 295 students in Adult Basic Education, 169 completed/graduated (57% rate of completion). For the Skills Training program, 217 students completed/graduated their program (86% rate of completion). Overall, 386 DTI students completed their education programs which is a 71% completion rate—a completion/graduation rate that is significantly better than that for comparable institutions in the province.

DTI continues to be responsive to community needs and strives to deliver programs in local communities. During the 2011-2012 year, DTI was involved in 14 different communities either through direct programming from DTI or through partnerships with one of the regional colleges.

In the past 20 years, DTI has delivered 510 programs in 39 communities across Saskatchewan. We have graduated 182 Practical Nurses since 1992, making DTI the second largest producer of Practical Nurses in the province. DTI has helped 538 Métis students who had left school before graduating earn their Grade 12 diploma over the last ten years. These are only a few snapshots of what DTI has helped accomplish in the past 20 years, and these numbers will continue to grow for the next 20 years as DTI continues to "Help Build Brighter Futures."

Dumont Technical Institute ABE Programs 2011–2012

Adult Basic Education	Location	Enrolled	Male	Female	Grads	Completed	Program Funding
Level 1 & 2	La Loche, SK	14	4	10	2	9	DTI ABE
