OPEN HOUSE

Sustainable Maintenance Technician Program

SNACKS & REFRESHMENTS WILL BE SERVED.

This program will provide learners with the fundamentals necessary to diagnose, repair, and maintain outdoor power equipment with an emphasis on aluminum-hull harvesting boats.

Preference will be given to those actively involved in wild rice harvesting or the repair and maintenance of harvesting equipment.

This program is offered rotationally in 2 week periods.

For more information about this program, please visit our website!

Île-à-la Crosse, SK
